Elected as mooring holders' representative in 2021

Biography

An A mooring holder since 2002, outhaul 1991. Both supported access to the beautiful playground the estuary offers. Through the PTA, as a school governor, Joint YYC cadet secretary and secretary of the Newton and Noss Network I have supported the cadets and community sailing. Also, I have participated in a number of environmental projects in the Estuary.

My career was varied. My main focus was in developing people and organisations through management programmes and training, across all levels in the statutory, voluntary and community sectors. I have worked strategically developing evidence based health policies. Identifying and analysing need and interests where encouraging 'buy in' amongst stakeholders from diverse communities and professionals was key to successful outcomes. I am always interested in hearing about issues that the RYHA should consider.

Jez Spring

Position

Harbour Master

Biography

I joined the Royal Navy in 1981 and served as an Aircraft Technician and Engineer working on a range of military helicopters and Sea Harrier jets. Having left the RN in 2002, I spent the next 18 years as an Instructor at Britannia Royal Naval College (BRNC), Dartmouth, as an Academic Instructor (Weather, Climate, Aviation Systems) and a Leadership Coach and Assessor. Whilst at BRNC I learnt to sail and also became an instructor, teaching boat handling to young Officer Cadets on Picket Boats and Motor Whalers. Having taken up Sports Diving early in my Naval career, I qualified as a Military Sports Diving Supervisor and Powerboat Instructor. Over the past 18 years, I have been fortunate to organize, supervise and instruct on over 40 UK and foreign diving expeditions. My other main interest during this period has been my involvement in organizing and supervising Military Ski Races out in the French Alps.

I have lived in the local are for 21 years and for the past 2 Summer Seasons, I have been the RYHA Deputy Harbour Master, which I hope has given me a good insight into the operation and demands of the Harbour Master role.

Debbie Rhead

Position

Office Manager

Biography

I have been a resident in Newton & Noss all of my life and was really happy to take up the role of Office Manager at the Harbour Office when the position became available. Following on from Helen Phillips who had worked here for 17 years was a hard act to follow but I hope to continue to provide a helpful and friendly service to all of our residents and visitors as they come to use the river.

Having previously worked in the local Primary school for a number of years and always being a resident in the parish I am familiar with many residents and look forward to catching up with them and all of the people I have yet to meet over the coming seasons.
